

ACP Series Linear Power Supply Specification Sheet

Description

DC linear power supply without high frequency ripple interference. The device includes a power supply status indicator LED.

Performance Parameter

- Storage Battery: 7AH 12VDC. Supports connection of multiple backup storage batteries.
- Fuse: 10A. Protection circuit design to avoid short circuit damage. Replaceable fuse.
- Output voltage : DC12V Standard output, Output range adjustable from DC10V to DC14V via adjustable resistance
- AC Transformer : 30W 2A-3A

Structure
