Smart Card + Magstripe Card + Mechanical Override Key

The 6600-73MI Lock has been designed to accept both Magnetic Stripe Cards and Smart Cards for routine use as well as incorporating a Mechanical Override Key. The 6600-73MI is perfect for medium to large hotels. Under normal conditions, guests use the inexpensive magnetic stripe cards (approximately \$0.50 / card). However, magnetic cards have a limited life and usually can be re-used for 200 or so guests. These cards are not the best option for hotel wait, cleaning and maintenance staff as these employees pass in and out of the rooms on a much higher frequency. Smart Cards are slightly more expensive (approximately \$1.50 / card). However, the cards are much more durable and can be used 100,000 times. The combination of magnetic and smart card technology in one lock gives hotels the flexibility to manage card use and type in a way that best serves its particular needs.

- Elegant styling with no visible screws on the lock surface.
- Free rotating handle eliminates forced break-in.
- Powered by 4 standard 1.5V AA alkaline batteries.
- Operational temperature range from -20°C (-5°F) to +70°C (+158°F).
- Lock supports Smart Cards, Magnetic Cards and a Mechanical Override Key.
- Audit trail stores the most recent 256 transactions and maintains the information within the lock for up to 10 years.
